Reversal Of Fortune is a dramatic, fast-paced game show with a stand-out format that's decidedly different. In each show five players compete in a two-stage contest. In the first stage there are seven assorted questions that must be answered against the clock.

In the second stage the players line up according to how much money they've won, to face the tension-packed challenge of the cash ladder. At the top of the ladder there's an amazing cash prize of 50,000 Euros.
